FIJI CORRECTIONS SERVICE

Annual Report

SEMPER RESTITUENS

REFERRALS LETTER

Hon Minister Aiyaz Sayed-Khaiyum

The Attorney General and Minister for Economy,
Public Enterprise, Civil Service and Communications.
Attorney General's Chambers
Level 7 Suvavou House
Victoria Parade
P O Box 2213
Government Buildings
SUVA

Dear Honourable Minister,

I have much pleasure in presenting to you the Fiji Corrections Service 01 August 2018 to 31 July 2019 Annual Report.

The report highlights the monthly performance and achievements in delivering the outcomes in line with the Organizational Plan. The change of financial year from 2018 to 2019 has enabled us to review the Annual Corporate Plan by including key initiatives and target outcomes that will surely reform the status quo, ensuring a more focused workforce that are more resilient and result oriented.

Yours sincerely

F.B. KEAN*Commander**Commissioner of Corrections*

FOREWORD

COMMISSIONER OF CORRECTIONS

I have much pleasure in presenting the Fiji Corrections Services (FCS) Annual Report for the financial period of 01 August 2018 to 31 July 2019.

The report replicates the effective management of our overall operations and the administration of all Correction affairs as per the allocated national budget. This has been achieved by stringently implementing and monitoring of good governance principles, transparency and accountability in all our dealings. A vital component of this achievement has been the concerted and consistent effort of all FCS personnel.

Training has and will continue to play a critical role in our efforts to maintain sound operational effectiveness in all areas of our work at Corrections. Our training team at our Training Academy at Naboro have worked tirelessly in this regard. This coupled with the weekly training sessions in our 15 Correction Centers plus our Divisional Headquarters have contributed immensely to this desire to pursue excellence in our service delivery.

The security, well being and rehabilitation of all those under our care continues to be the bedrock of our daily business at FCS. The increased rehabilitation initiatives such as the establishment of

CARE Networks, the Sow A Seed Program and partnership with Montfort Boys Town School have and will continue to contribute to our mission of positively restoring lives. The slight spike in our recidivism rate is a concern; although it is at a manageable level this will still further challenge the team at Corrections to identify areas of improvement to address this shift. We also acknowledge the stupendous contributions of all our rehabilitation program service providers.

Our Six Small Business Units (SBU) operating under the Trade and Manufacturing Account (TMA) continues to deliver improved remittances back to Government. The consistent performance of the 6 SBUs is a reflection of the sound commercial practices being implemented in these units, a credit to the operating team. The SBUs have also doubled up as effective rehabilitation tools in bringing about positive change in the lives all those incarcerated.

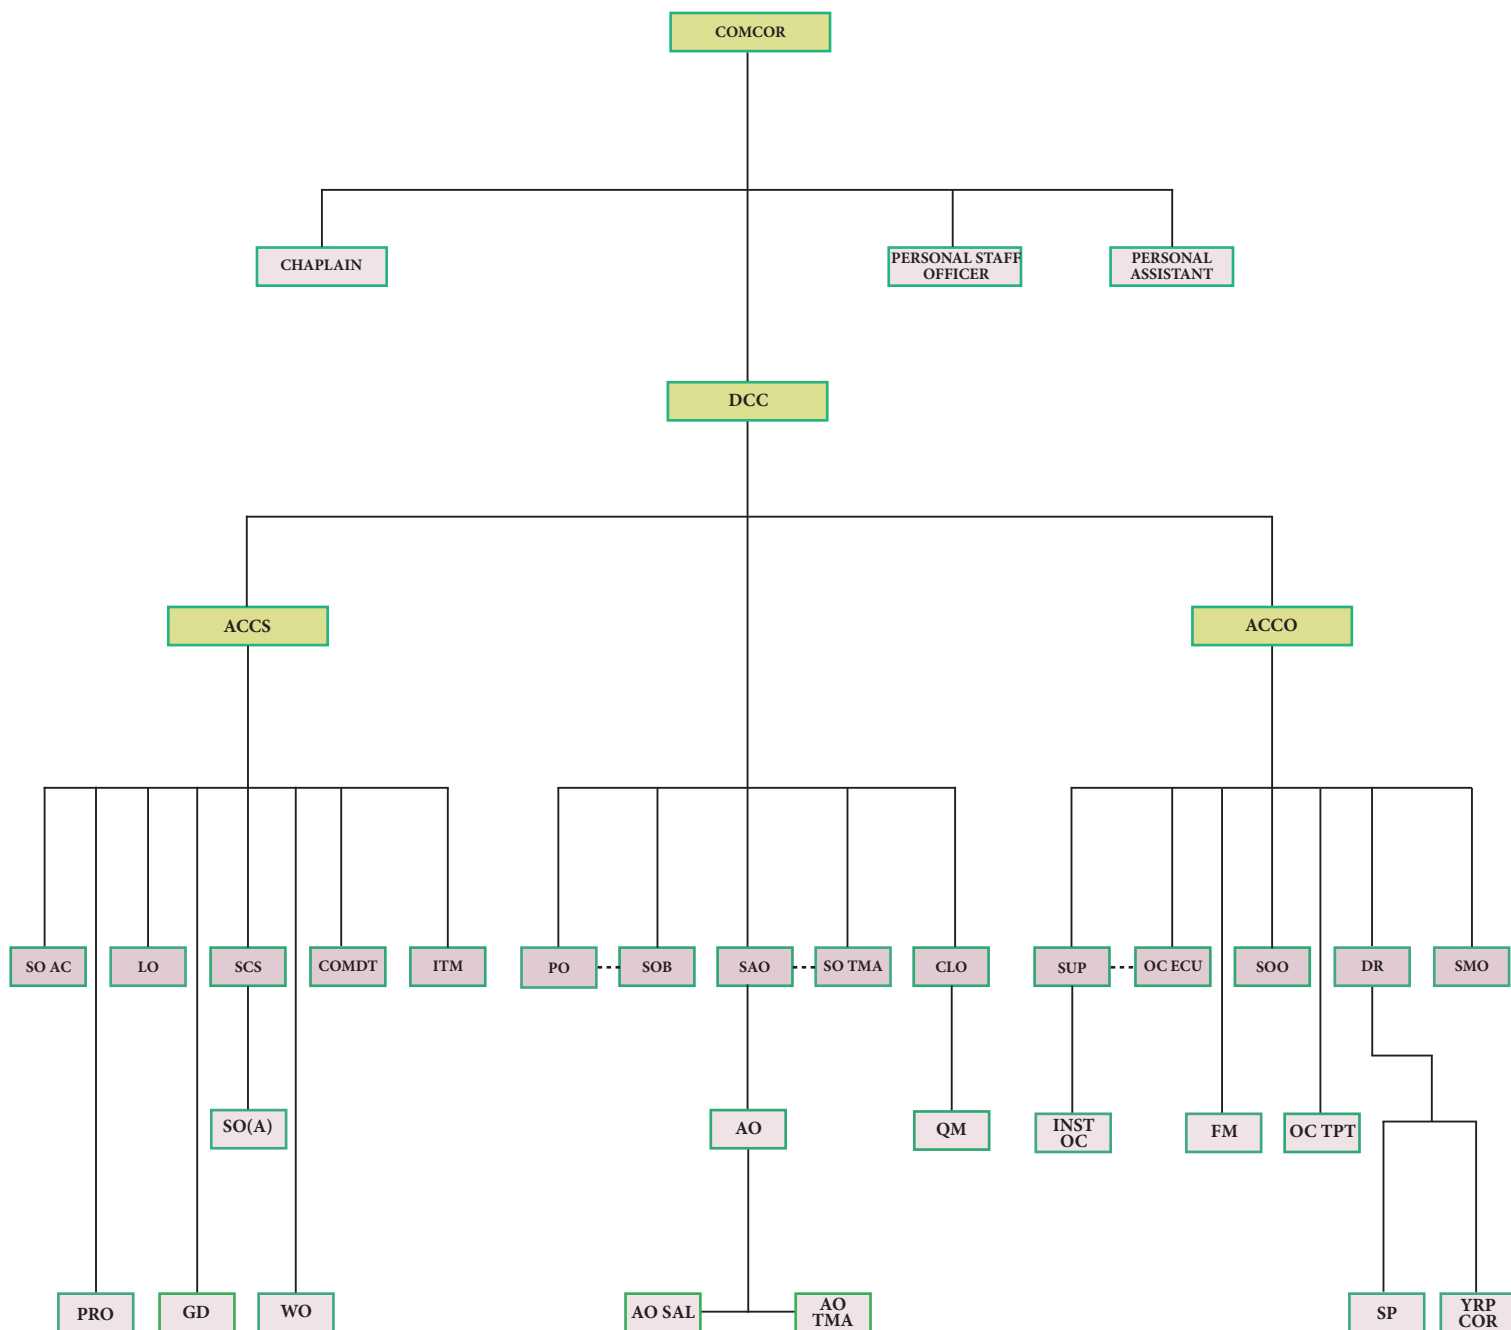

I commend to you this Annual Report of the Fiji Corrections Service.

F.B. KEAN
Commander
Commissioner

ORGANIZATION STRUCTURE

STRATEGIC OBJECTIVES

VISION

To effectively rehabilitate all inmates that they will become lawful abiding citizens, who contribute positively to our country, Fiji.

MISSION

To positively restore lives

VALUES

Family
Integrity
Loyalty
Honesty
Empathy
Leadership

MOTTO

Semper Restituens
(Always Rehabilitation)

KEY PRINCIPLES

The Fiji Corrections Service three key principles are:

STRATEGIC PRIVATE CONCEPT

We value the contribution of all staff in the Institution. Whatever their appointment is, whether as a Custodial Officer, Driver, Cleaner, Receptionist, Duty Officer, Junior or Senior Officer, you have a purpose to add value to the success of the Fiji Corrections Service.

LEADERSHIP

Everything rises and falls on leadership. We are expected to exercise sound and strong leadership at all times. This is summed up in the quote from Bill Cosby, *"I do not know the key to success but the key to failure is trying to please everybody"*. Do not try to be popular because all popular leaders have failed. Never shy away from making the tough decisions when it is required of you.

HONEST DAYS WORK

We are expected to commit to an honest day's work. This simple and powerful message must be at the centre of our daily attitude to work.

ORGANIZATION RESPONSIBILITIES / CORE BUSINESS

The Fiji Correction Services is obligated under the Correction Act 2006 to serve the public by keeping in custody those convicted by the courts in providing effective corrective services and applying all human rights obligations and standards, and for related matters.

The three core businesses of the Fiji Corrections Service (FCS) will remain as:

1. SECURITY

The security of Corrections Institutions encompasses several essential components. This includes appropriately designed physical infrastructure, relevant modern technology and an efficient and effective manning standard. Security covers a well-defined and organized correction system for prisoners including their safety. Enhance management of inmates and effective delivery of rehabilitation that contributes towards a dynamic security for the FCS.

2. SAFETY

FCS ensures proper management and treatment of those under its care. These include the recognition of inmates' personal needs and privileges, the protection of their human dignity and rights, and the provision of nutritional health and hygiene services. Inmates management contribute positively to improve health, mental well-being and risk reductions. This is achieved through proper categorizations of prisoners to determine their safety, risks and sound management.

3. THROUGH CARE

The heart of our work as Correction people is rehabilitation. FCS has re-directed its focus from containment to corrections by effectively rehabilitating prisoners to become law abiding and responsible citizens. This involves the development of a holistic rehabilitation framework that ensures transformation in the lives of inmates. This will encourage positive restoration in the life of prisoners and enhance successful re-integration into society. The approach towards achieving an effective rehabilitation process requires up skilling of FCS personnel working in collaboration with relevant stakeholders.

*Inmates Key
Statistics*

CONVICTED AND REMAND INMATES

Under our custody are two major categories of inmates. Convicted Inmates are classified as those that are sentenced by Court, whilst those awaiting trial and are yet to be sentenced are classified as Remand Inmates.

The other categories of inmates in our custody are Civil Inmates who are mainly referred to as debtors, whilst Detainees are those referred to us by the Immigration Department for violating immigration laws.

A total comparative average number of convicted inmates, remandees, civil inmates and detainees in custody for 2018/2019 are shown in Table 1 below.

An average of 1813 convicted inmates were in custody, from August 2018 to July 2019 was recorded compared to 1721 recorded in 2017-2018. The trend is indicative of the increase of offences committed during the reported financial year.

The number of convicted inmates increased by 5% in 2018/19 as compared to 11% in 2017-2018 and 13% in 2016-2017. Remand inmates recorded an increase of 21% in 2017 – 2018 as compared to 0.8% in 2018-2019.

GENDER REPRESENTATION

The trend indicates a fluctuation of male and female inmates in custody for the reported months. Male inmates however, recorded a notable increase

of 11% in 2018/2019 compared to 8% in 2017/2018, while the numbers of female inmates increase from 83 to 106 in 2018–2019 an increase of 22%.

AGE CATEGORIZATION

Age categorization together with the offence details allows reliable and effective classification and allocation of inmates under our care. Young inmates between the ages of 16yrs - 25yrs are classified as Star Class and are accommodated at the Nasinu Correction Centre.

Others are categorized as Ordinary Class while all female inmates are categorized as Women inmates. They are allocated to institutions appropriate for them to serve their sentences. The existence of the Central Allocation Board, allowed in-depth profiling of inmates personal, family background, risk analysis and personal welfare needs. This has become the platform for the effective allocation of inmates to various correction institutions within FCS. Sets out in Table 4(A) below are the categorization

of age by months

Table 4(B) below, it shows that the Age category from 21-35 years, continued to dominate the prison population in 2018-2019. This is a vulnerable youth group, who could easily be enticed back into criminality after been discharged if they are not rendered with the right community intervention programs, general support from family members, key stakeholders and the public at large.

This category represented 41% of the total population in 2018-2019 which reduced by 8% as compared to 49% of total population in 2017-2018.

RECIDIVISM

Recidivism is regarded as the tendency of a convicted criminal to re-offend. In line with the FCS standard guideline, an inmate is considered a recidivist when he/she is re-admitted within 24 months from his or her initial discharge date on a new offence.

On the contrary, an individual who is re-admitted within 24 months period from his or her initial discharge date on a pending case is not considered a recidivist.

We are mandated by Government to continuously aim to reduce recidivism. This has become a real challenge for us not only in identifying intervention programs within, but to initiate viable proactive strategies and options that will help reduce the likelihood of re-offending behavior patterns.

There was an increase of 33 in total recidivist of 60 recorded in 2018/2019 compared to 27 recorded in 2017/2018. The calculation provides us the total recidivism of 2.5% for 2018/2019.

SAFETY & SECURITY

SECURITY

Security is one of the major functions of the Fiji Corrections Service. A well-defined and organized corrections security is essential to good order, discipline in all corrections contributing to a safer community. Improved infrastructural design and installation of Closed Circuit Television (CCTV) in all Institutions will strengthen efforts to effectively manage security and its associated risks within the FCS.

ESCAPES

Four escapes took place in 2018/2019, three at the Southern Division and one at the Western Division while none from the Northern and Central/Eastern Division as compared to three escapes in 2017/18 reporting period.

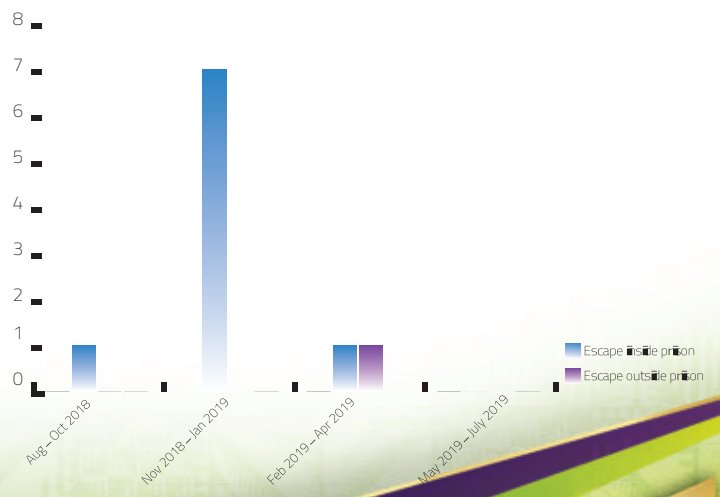

In 2018/2019, the nine escapes incident took place inside and one outside the work parties compared to the three escape incidents in 2017/2018, all escaped from inside the Institutions.

COMPLAINTS & GRIEVANCES

Under our Guiding Principles alongside the United Nations Standard for Treatment of Offenders, inmates are given the right to lodge any complain against officers, provided there is a breach of human rights or any other relevant issues that violate rights in any way.

We are mandated to minimize and further identify possible avenues and strategies to eliminate complaints against any correction officers, either from inmates or members of the public.

Sets out in Table 11 are the number of complaints against correction officers for 2017/2018 as compared to 2018/2019.

Most of the complaints received during the reported year were made to the FICAC followed by complaints tendered to Courts. Complaints against staff were mostly centered on treatment of inmates and other matters that may affect good order and discipline of the institutions.

UNTOWARD INCIDENTS & CONTRABANDS

Untoward incidents or Prison disorder are unusual occurrences that compromise safety, good order and discipline in any correction Institution. The most common ones include hunger strike, disturbances, riots and prison assaults of three forms (Officer against prisoner, prisoner against prisoner and prisoner against staff).

Contrabands are unauthorized items that enter any correction Institution through illegal means. It poses imminent threat to the safety of other inmates, staff and overall security and good order in general. The most common type of contrabands smuggled into the Institutions are cell-phones and drugs (marijuana).

Generally, the availability of contraband contributes to a weakening of good governance within a prison and undermines

the aims of making a prison environment safe and secure. There are many means on how contraband items are being smuggled into the corrections institutions in Fiji. The most common means in Fiji are through visitors and also being thrown in from outside the Institutions. Cell phones represent the most concern in all our institutions. Inmates access these contraband items to; coordinate escapes, threaten or intimidate witnesses, orchestrate crimes such as gang activities, bribe corrections officers and create security breaches.

Other contrabands includes, hacksaw blades, sharp objects, pornographic materials and cigarettes of all kinds. These include items that can be used as a tool to assist their escape.

Set out in Table 12 are the numbers of untoward incident including contrabands for 2017/2018 and 2018/2019.

TABLE 12: UNTOWARD INCIDENT COMPARATIVE 2017/2018 AND 2018/2019

CONTRABAND	149	198	184

Source: Fiji Corrections Service Database

FIGURE 12: COMPARATIVE GRAPHICAL REPRESENTATION ON UNTOWARD INCIDENT COMPARATIVE

Source: Fiji Corrections Service Database

CLOSED CIRCUIT TELEVISION (CCTV)

The installation of CCTV in all correction institutions play a key role in the rapid detection of contraband items, unusual occurrences and improve the surveillance of all activities conducted within. It also assist in minimizing prison escapes and encourage staff members to conduct their duties ethically.

With the 2018/2019 allocated budget of \$300,000, FCS was able to complete the following projects:

- Installation and Maintenance of CCTV, Control 2 Unit, Naboro;
- Installation and Maintenance of CCTV Maximum CC, Naboro;
- Installation and Maintenance of CCTV, Medium CC, Naboro;
- Installation and Maintenance of CCTV, Minimum CC, Naboro;
- Installation and Maintenance of CCTV, PRC, Naboro;
- Installation and Maintenance of CCTV, K9, Naboro;
- Installation and Maintenance of CCTV Wireless Camera for Ba CC Farm;
- Upgrade of equipments at MCR, Suva CC; and
- Installation of Walk Through detector at Lautoka Remand CC.

SECURITY SUPPORT SERVICES

The Emergency Control Unit & K9 Unit acts as a supportive element to effective prison security and to continually maintain good order and discipline at all times. They are directly responsible for Institution and individual

searches, boundary patrols and prisoner escorts. Much of their daily activities are focused on security observation, emergency mock exercises and information gathering. A total of 62 Officers of all ranks, are members of the Unit.

CEMETERIES & BURIALS

The FCS is responsible for managing cemeteries and maintaining burial grounds throughout Fiji. They include Suva, Nasinu, Vatuwaqa Lautoka (2), Levuka and Labasa Cemeteries. It also looks after the crematorium services at Vatuwaqa. Set out in Table 13 are the allocated budget comparison 2016/2017-2018/2019.

There was no increase in the budgetary allocation for 2018/2019

from 2017/2018. This budgetary allocation was largely used for the extension of few of the cemeteries and the continuous maintenance of burial grounds. Set out in Table 14 is the standard burial, cremation fees and total revenue collected in 2018/2019.

The reduction in the number of burials and reopen of graves from 2016/2017-2018/2019 greatly impacted the revenue collected which is also caused by the limited space available for burial.

*Improved
Rehabilitation*

REHABILITATION PROGRAMMES

The revised Rehabilitation Framework provides the new direction for staff to prioritize the rehabilitation and treatment of offenders in a holistic and well synchronized manner using its identified phases as a guide to effectively implement its associated activities.

Inmates upon admission are required to undergo a thorough needs and risk analysis; by way of the Institutional Sentencing Board. The findings will later form the basis to determine the precise intervention programs each inmate has to undergo to ensure they are treated with the right rehabilitation programs.

The framework has four (4) phases, ensuring a holistic rehabilitation approach towards the successful re-integration of

inmates back to society.

From the table 16 below there has been an increase by 197 in the number of rehabilitation programs offered in 2018/19 as compared to 460 offered in 2017/2018. The increase in the number of programmes by 51% allowed for the review of the Rehabilitation Framework that adopted new programmes for short termers, solesolevaki as a re-entry programme and the review Policies to guide the implementation of the Framework.

Figure 13 below displays the graphical representation of the number of rehabilitation programmes conducted in 2017/2018 and 2018/2019.

EARLY RELEASE SCHEMES

The Early Release Scheme provides an alternative to longer sentences in custody by conditionally releasing inmates back to society prior to his/her normal discharge date as per Court order. The main objective of the scheme is to allow smooth transition of inmates from a closed environment with strict rules and procedures to abide with, to one that is flexible in nature. This is also an avenue where continuous assessment is made on the ability of inmates to maintain good behavior and

a positive attitude under minimum supervision. Another benefit of the scheme is that it allows inmates to start reconnecting with family members whom they have lost touch with due to their incarceration.

This also allows time and opportunity to discuss programs to pursue to ensure successful re-integration of an inmate when finally released.

EARLY RELEASE FOR EMPLOYMENT

The Commissioner under Correction Act Section 46(a) has the authority to release an inmate under the scheme, provided the inmate met the following minimum requirements to be eligible for early release: in relation to release under programs involving the performance of community work or paid employment;

- (i) the inmate shall have a low security classification; and
- (ii) the inmate has 12 months or less of his or her effective sentence to serve.

Inmates released under the scheme are those that have been accepted through a job placement for paid employment with a potential job provider. This is an avenue where inmates have a greater chance to alleviate crime cycle, live a better life, improve standard of living and become productive and responsible citizen.

The FCS managed to release 39 inmates for employment and they now continue in these job placements after their release from their respective Corrections Centers in the 2018/19 period.

EARLY RELEASE FOR EDUCATION

In relation to undertaking a course of education or instruction:

- (i) the prisoner shall have a low security classification;
- (ii) the prisoner has 12 months or less of his or her effective sentence to serve;
- (iii) the prisoner has been accepted to undertake and appropriate course of education or instruction.

Inmates released under this scheme are those that have been accepted to undertake courses in a tertiary and relevant approved Institution. Part of the agreement that forms the basis for approval is for family members to pay for all associated fees if a private student, or to provide copy of sponsorship letter if sponsored. This is an opportunity for the inmate to renew their efforts, establish knowledge and utilize its precepts to become effective and productive citizens in the future.

EARLY RELEASE SCHEMES

COMMUNITY WORK

Early release schemes aims to assist in the rehabilitation of prisoners and provides opportunities for prisoners to re-enter society through their performance of Community Work. They are released under the scheme to serve their community under the strict supervision of the Church, Community Leaders and Institutions.

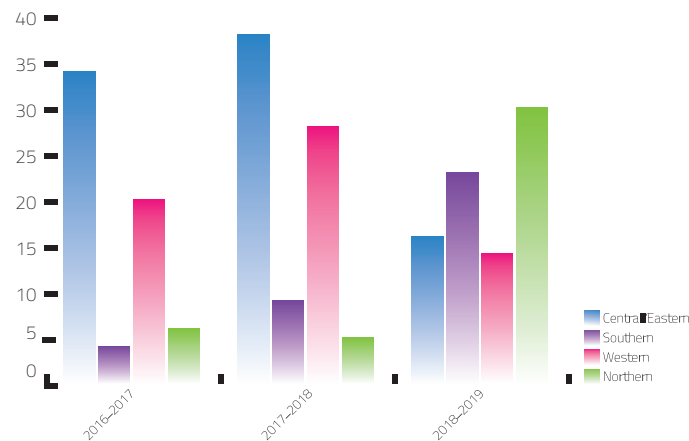

The number of inmates released for Community Work in 2018/2019 was 83 compared to 80 in 2017/2018. The execution of our reviewed Rehabilitation Framework and the setting up of Rehabilitation structures in all the Division will have some impact on this strategy. These includes the recruitment of Divisional Psychologists to assist in the proper assessment of inmates before they are qualified to be released.

SHORT TERM RELEASE

Inmates are released into the care and supervision of traditional chiefs or community or family leaders for the purpose of helping them acclimatize to the new environment before they are released for good. This may also include being released to attend certain family activities or gatherings. This helps them reconnect with family and friends. Inmates are conditionally released to family members for a period of seven to 14 days.

The release of inmates on short term basis through the Solesolevaki programme impacted on the number achievement of this strategy. Inmates undergoing this program were given the opportunity to prepare themselves prior to their full release. There were 26 Short Term Releases approved during this period.

EARLY RELEASE SCHEMES

WEEKEND RELEASE

Inmates released on weekends serve a similar purpose of other early releases, which is to continually foster stronger family bonds. One must never lose sight of the importance of family in the rehabilitation process.

This particular scheme is a pre-requisite to an inmate's eligibility

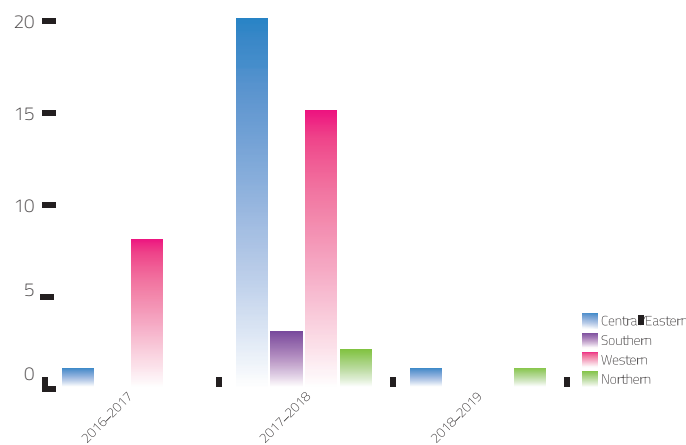

for short term and community work. Inmates are conditionally released to close family members on Fridays at 1600hr in the afternoon and must be brought back by his/her family members on Sundays before 1600hr the same week. Set out in Table 22 are the comparison number of inmates released on weekends by Division for 2016/17 - 2018/2019.

JOB PLACEMENT

Job Placement is offered to eligible convicted inmates who are consistent and have successfully completed all phases of the rehabilitation framework. In-depth assessments are further made to determine the right candidate for job placement. Job providers by way of agreement will coordinate with FCS on the condition of employment and necessary security arrangement.

Inmates will be released to his/her employer in the morning to attend to work and back to the institution after work. This is an opportunity for inmates to learn new talents, develop their skills and become productive when fully discharged. Inmates are paid with stipends as agreed between the employer and FCS. Set out in Table 23 below is our achievement by Division for 2018/2019.

POVERTY ALLEVIATION PROGRAM (PAP)

This is another avenue within the rehabilitation framework that inmates could conditionally have access to. A total of \$100,000 was allocated for the program. The program initially provides inmates who meet a certain criteria with a \$1,000 grant to start their own business of their choice upon discharge.

However, the PAP Policy was reviewed during the year:

- To set out the criteria and establish clear guidelines for inmates assessment to help qualify them for PAP assistance, keeping in mind the proper utilization of the fund;
- To enlarge the scope of assistance to offenders based on substantive evidence, analysis, assessments and feasibility studies on large scale commercial fishing and farming of offenders from our maritime islands;
- Incorporate businesses to become successful

entrepreneurs after going through relevant rehabilitation and up skilling programs whilst in Correction Centres;

- Promotes sustainable livelihood for ex-offenders once they are released from Correctional Institutions and induce self-reliance and empower ex-offenders to become law abiding and responsible citizens of our nation; and
- To contribute significantly to our aim in reducing the number of recidivists.

The grant was increased from \$1,000 to a maximum of \$5,000 depending on the nature of the project and the outcome of the feasibility studies conducted. This is to ensure that ex-offenders fully benefit from the scheme and the assistance provided successfully assists them in their small business. The total PAP applications requested for the past three years is shown in Table 24 below.

YELLOW RIBBON PROJECT (YRP)

The Yellow Ribbon Project is a platform for educating the communities and the public on roles and responsibilities in regards to taking ownership of ex-offenders once they complete their sentences and return to their own communities. It continues to be the flagship of the FCS rehabilitation drive for the successful reintegration of convicted prisoners back to their families, community and the Vanua. This flagship also aligning

with FCS Approved Output three: Effective Rehabilitation Services. Table 25(A) sets out the allocated budget for YRP from 2016/2017 to 2018/19.

The ACP 2017/2018 requires the FCS to conduct 150 Yellow Ribbon Awareness as compared to 108 in the ACP 2018/2019. Sets out in Table 26 below are our achievement by Division.

COMMUNITY OUTREACH PROGRAMS

Whilst the impact of crime committed may continue to impinge on victims and the community, the FCS on the other hand continues to be vocal on the need for members of the public to change attitudes in order to remove the stigma associated with being incarcerated. With the support

Out of the 208 Community Awareness programs conducted, 70 were carried out in villages. Awareness programs were also conducted in villages in Tailevu/Lau prior to the commencement of a symposium.

TABLE 27: YRP AWARENESS PROGRAMME BY TARGETED GROUP

of the Government, the FCS will continue to fulfill its mission of ensuring better lives for offenders after incarceration.

This can only be fully realized through genuine and sustainable community support and action. Set out in Table 27 above are the breakdown of locations and target groups visited during the year.

Similar events were also held in villages from Naitasiri, Tailevu, Nadroga, Navosa, and Ra including those in Vanua Levu particularly during handing over of inmates upon their discharge.

YELLOW RIBBON WALK

As part of the Yellow Ribbon Programme is the Yellow Ribbon Walk that is conducted yearly at a time and venue determined in the FCS 2018/19 Annual Corporate Plan. The walk was successful as more than 400 supporters of all ages,

came out to support the YRP Walk which also coincides with the launch of the 'Sow A Seed Project'. Supervisors and Officers in Command provide the names of special stage inmates in their institution who will then be shortlisted to be part of the walk.

PROJECT SOW A SEED

In line with the YRP's objective of rehabilitation, a new YRP project called 'Project Sow A Seed' was also launched. The yearly organized YRP walk-through Suva area also coincided with launching of this new project.

This program aims to help imprisoned youths and 1st time offenders between the ages of 17–25 years of age through mentoring. A total of 11 candidates were selected and (8) successfully completed the Sow A Seed program during this period 2018 / 2019.

CARE NETWORK

We have taken another proactive measure in our Yellow Ribbon Project campaign aimed towards the successful re-integration of ex-offenders back into society, with the implementation of the CARE Network.

The Community Awareness and Rehabilitation of Ex-offenders (CARE) Network program is now being piloted in Rewa, Serua, Tailevu and Namosi in the form of symposium with the formation of a committee to improve the effectiveness of ex-offenders' rehabilitation in the community. The proper facilitation of the re-

integration process should also be determined by the acceptance of the Vanua.

Its main target is to have a concerted and coordinated approach towards supporting rehabilitation and reintegration of ex-offenders back into society. It also ensures that the CARE Network is initiated from day one of when an offender is incarcerated until the day of their release. The involvement of mentors, families, relatives, stakeholders and faith-based organization is crucial for inmates' survival in the community.

*Improved
Infrastructure*

IMPROVED INFRASTRUCTURE

GENERAL

The main FCS Project Unit is responsible for the implementations of its Infrastructure Development Plan through effective Project Management. These involve conceptualization of design, documentations (drawing and estimates), tender and contract, documentations, construction management, reporting and monitoring in accordance with the Fiji Standard Form of Building Contract, Drawing and

Specifications.

All capital projects earmarked for each year are part of the FCS Infrastructure Development Plan through public sector investment in infrastructure and the Commissioners Intent. FCS managed to utilize 100% of its capital projects budget in 2018/19 compared to 73% in 2017/2018.

IMPROVED CORPORATE SERVICES

GENERAL

The Corporate Service Division of the FCS is responsible for the overall Finance, Logistics, Administrative, Health and well-being for all staff. It is also responsible for Human Resource recruitment and selection of individual who wish to join the FCS.

Staff established approved posts remained at 963 and it is always prudent to the Human Resource staff to maintain the turnaround time to administer requests and quires by internal and external

customers.

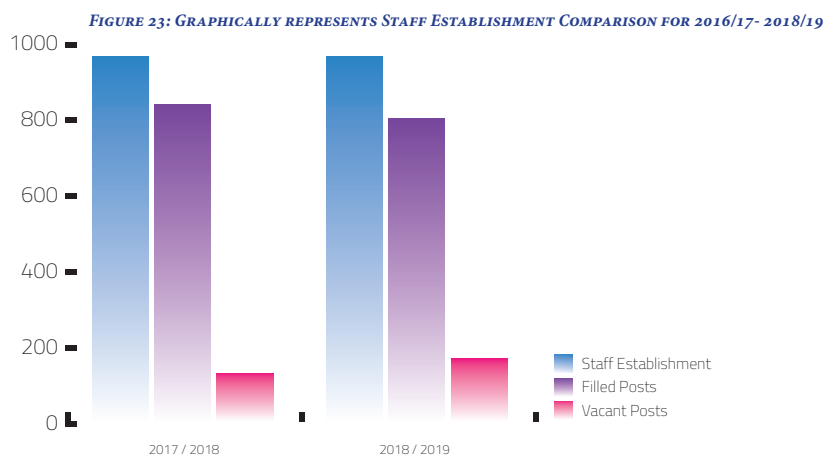

During this financial year, there were a total of 134 new recruits that passed out from the two (2/18 & 1/19) Basic Recruitment Course conducted (77) April and (57) May 2019 respectively. This 165 vacant post was also subject to trade-off in order to create six new civilian posts of Counselors, Psychologists and Nurses.

INDEPENDENT AUDITOR'S REPORT

To the Minister for Justice

Report on the Audit of the Financial Statements

Opinion

I have audited the financial statements of Fiji Corrections Service, which comprise Statement of Receipts and Expenditure, Appropriation Statement, Statement of Losses, Trust Fund Account Statement of Receipts and Payments, Consolidated TMA Manufacturing Account, Consolidated TMA Trading Account, Consolidated TMA Profit and Loss Statement and Consolidated TMA Balance Sheet, for the financial year ended 31 July 2019, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements of the Department are prepared, in all material respects, in accordance with the Financial Management Act and Finance Instructions 2010.

Basis for Opinion

I have conducted my audit in accordance with International Standards on Auditing (ISA). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Department in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code) together with the ethical requirements that are relevant to my audit of the financial statements in Fiji and I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter

I draw attention to the following matters:

1. Note 6 of the financial statements provides a brief description for the purpose of the Prisoners Cash Trust Fund Account. As at the date of my audit report, the Fiji Corrections Service was still in the process of updating the beneficiaries listing prior to 2015 which details the actual cash earned by the prisoners during incarceration.
2. Internal controls over procurement, payments and revenue were generally found to be weak. This is in respect of the improper usage of the operating trust fund account, non – receipt of the direct deposits, unsigned cash analysis sheets, delay in banking and using more than one receipt book to record revenue received on consecutive days. These internal controls weakness, if not addressed on a monthly basis, may result in material misstatements and possible financial losses in the future.

My opinion is not modified in respect of these matters.

Responsibilities of the management and those charged with governance for financial statements

The management are responsible for the preparation of the financial statements in accordance with the Financial Management Act and Finance Instructions 2010, and for such internal control as the management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Those charged with governance are responsible for overseeing the Department's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with ISA, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fiji Corrections Service's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management of Fiji Corrections Service.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

 Ajay Nand
 AUDITOR-GENERAL

Suva, Fiji

FIJI CORRECTIONS SERVICE

STATEMENT OF LOSSES
FOR THE YEAR ENDED 31 JULY 2019

Loss of Money

There was no loss of money recorded for the year ended 31 July 2019.

Loss of Revenue

There was no loss of revenue recorded for the year ended 31 July 2019.

Loss (other than money)

There was no reported loss (other than money) recorded for the year ended 31 July 2019. The Board of Survey was conducted by the Department and the following items worth \$1,158,271 were recommended for write off:

Category	Amount (\$)
Office Equipment	106,781
Furniture	20,499
Computer Equipment	61,753
Others	969,238
Total	1,158,271

The Permanent Secretary of the Ministry of Economy approved the write off of the unserviceable assets reported in the Board of Survey report.

Loss of Assets (Livestock)

There was loss of livestock resulted from death of pigs and chickens for the year ended 31 July 2019. These deaths were generally caused by sickness, dog attacks, old age and injury from fights.

Description	Cost (\$)
Pigs	1,528
Chickens	13,762
Total	15,290

FIJI CORRECTIONS SERVICE

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2019

NOTE 1: REPORTING ENTITY

The Fiji Corrections Service [FCS] is responsible for properly and safely detaining and rehabilitating persons sentenced to a term of imprisonment or placed on remand pending trial by the courts at its correctional centres.

The FCS upholds Government's obligation to meet international standards and best practices in its custody of inmates. One of its main responsibilities is to reduce overcrowding in correction centres to ensure that the human dignity of all inmates is respected.

NOTE 2: STATEMENT OF ACCOUNTING POLICIES

(a) Basis of Accounting / Presentation

In accordance with Government accounting policies, the financial statements of the Fiji Corrections Service is prepared under the cash basis of accounting. All payments related to purchases of fixed assets have been expensed.

The financial statements are presented in accordance with the Financial Management Act 2004 and the requirements of Section 71 (1) of the Finance Instruction 2010. The preparation and presentation of a Statement of Assets and Liabilities is not required under the current Government policies, except for that of the Trading and Manufacturing Accounts.

(b) Revenue Recognition

Revenue is recognised when cash is actually received by the Department.

(c) Accounting for Value Added Tax (VAT)

All income and expenses are VAT exclusive. The Fiji Corrections Service on a monthly basis takes out VAT output on total money received for expenditure from Ministry of Economy. VAT input on the other hand is claimed on payments made to the suppliers and the sub-contractors for expenses incurred.

The VAT payment as per the Statement of Receipts and Expenditures relates to VAT input claimed on payments made to the suppliers and sub-contractors for expenses incurred and VAT payments to Fiji Revenue and Customs Services (FRCS). Actual amount paid to FRCS during the year represents the difference between VAT Output and VAT Input.

AUDITED FINANCIAL STATEMENT

FIJI CORRECTIONS SERVICE

NOTES TO THE FINANCIAL STATEMENTS (CONT...) FOR THE YEAR ENDED 31 JULY 2018

NOTE 2: STATEMENT OF ACCOUNTING POLICIES (cont...)

(d) Comparative Figures

The financial year end for Government was changed from 31 December to 31 July in accordance with the Financial Management (Amendment) Act 2016.

The financial statements for the year ended 2018 and the financial statements for the year ended 2019 are both for a twelve months period.

NOTE 3: SIGNIFICANT VARIATIONS

- a) Burial fees increased by \$7,033 or 12% in 2019 compared to 2018 due to increase in burial and reopening of graves.
- b) Miscellaneous revenue decreased by \$250,513 or 84% in 2019 compared to 2018 due to a one off refund received from a supplier that was recorded in 2018.
- c) Travel and communication cost increased by \$176,716 or 25% due to the increase in court movements for inmates and deployment of staff during reshuffle of duties and postings. The cost of boat, air passages and allowances are facilitated from this allocation.
- d) Purchase of goods and services cost increased by \$694,056 or 14% due to the increase in the number of inmates being admitted into the institutions which has led to an incline in institutional operational costs such as rations consumption and inmates uniforms. This was also attributed by the purchase of uniforms for new recruits and procurement of OHS materials such as spraying chemicals for beddings.
- e) Operating grants and transfers cost increased by \$2,945 or 30% due to the increase in the number of inmates discharged resulting in the increase in stage gratuities released.
- f) Special expenditure cost decreased by \$199,459 or 31% in 2019 compared to 2018 due to the less number of applications received for the Poverty Alleviation programme. Also, in 2018 the Asian and Pacific Conference of Correctional Administrators was held.
- g) Capital construction cost increased by \$1,862,997 or 53% in 2019 compared to 2018 due to the new projects undertaken namely the construction of supervisors office, demolition of Suva main cell block and the slope stabilization works at Medium Corrections Centre.
- h) The capital purchases costs increased by \$81,396 or 17% due to replacement of chubb locks and purchase of office equipment.

AUDITED FINANCIAL STATEMENT

FIJI CORRECTIONS SERVICE

NOTES TO THE FINANCIAL STATEMENTS (CONT...)

FOR THE YEAR ENDED 31 JULY 2019

NOTE 5: SIGNIFICANT APPROPRIATION SAVINGS

Significant savings for the financial year ended 31 July 2019 are as follows:

No.	Expenditure	Revised Budget (\$)	Actual Expenditure (\$)	Savings (\$)	Percentage Savings (%)
a)	Established staff	21,290,526	18,353,179	2,937,347	14
b)	Government wage earners	34,656	17,085	17,571	51
c)	Operating grants and transfers	46,260	12,885	33,375	72
d)	Special expenditures	605,650	445,989	159,661	26
e)	Capital construction	7,348,475	5,403,436	1,945,039	26
f)	Capital purchase	675,000	567,698	107,302	16

- a) The savings in established staff and government wage earners is due to the vacant positions resulting from resignations, non-renewal of contracts and retirement of officers.
- b) The savings in operating grants and transfers is due to payment depending on discharge of inmates.
- c) The savings in special expenditure was due to the reduction in applications for poverty alleviation programme as opposed to the numbers budgeted.
- d) The savings in capital construction is due to the delay in the tender process, vetting and finalization of contract documents and the weather condition which delayed the implementation of capital projects that were planned and budgeted for to be carried out during the year.
- e) The savings in capital purchase is due to the non-installation of the local and wide area network resulting from budget constraints.

FIJI CORRECTIONS SERVICE

NOTES TO THE FINANCIAL STATEMENTS (CONT...) FOR THE YEAR ENDED 31 JULY 2019

NOTE 6: PRISONERS TRUST FUND ACCOUNT

The Fiji Corrections Service maintains a Prisoners Cash Trust Fund Account.

Money held in trust consist of confiscated cash from prisoners upon convictions, engagement in the Trading and Manufacturing Small Business Units (TMA SBUs), engagement in the art gallery and commercial wage job placements. For the TMA SBUs, the wage rate depends on the job cost, skill of the prisoner and years of experience in the trade. The more skilful the prisoner the more the wage rate charged. For commercial wage job placements, the wage rate depends on the rate offered by the company. For the art gallery, 60% of sale goes to the prisoner while 40% is used to purchase gallery items. The hours worked by the Prisoners are recorded in the timesheets and receipted when deposited into the Prisoners Trust Account.

Any pay out for prisoners upon discharge is taken out from this same Trust Account upon producing receipts. Pay outs are based on actual cash earned by the prisoners during incarceration. If there are discipline issues during incarceration these are accounted for when making payments to prisoners during release upon Commissioner's discretion. All payments are supported by receipts and approved by the Commissioner before being paid.

NOTE 7: FIJI CORRECTION SERVICE TRADING & MANUFACTURING ACCOUNT

The Fiji Corrections Service operates the Trading and Manufacturing Account (TMA) and is guided by its legal mandate to operate its Commercial Enterprises Unit as stipulated under the Fiji Corrections Act 2006 under Part 10 Clause 45 (a) to (d).

The Department's TMA consists of six Small Business Units (SBUs) namely the Bakery, Joinery, Piggery, Poultry, Tailor and Crops. The summary of the activities are presented in a consolidated form as there is only one bank account for all the SBUs.

The operation of these TMA helps in the rehabilitative work programs with key objective of teaching and developing inmates with basic industrial and agricultural skills. The TMA also generates much needed revenue through the sale of agricultural products, joinery, tailor and bakery materials.

The activities for the TMA are as follows:

AUDITED FINANCIAL STATEMENT

FIJI CORRECTIONS SERVICE

NOTES TO THE FINANCIAL STATEMENTS (CONT...) FOR THE YEAR ENDED 31 JULY 2019

NOTE 7: FIJI CORRECTION SERVICE TRADING & MANUFACTURING ACCOUNT (cont...)

Bakery

The Bakery Unit is responsible for baking long loaves and slice bread. Bakery unit is located within the Maximum Correction facility. This is the only product currently produced at the bakery. The production is to cater for the demand from the corrections institution and two main external customers which are the Fiji Military Forces and Fiji Navy. It also includes supply for special events like the Hibiscus Festival and Show Case when need arises.

Crops

This business unit does farming of crops and vegetables such as ginger, cassava, dalo and many other products according to seasons. The produce are mostly used to cater for institutional needs and also for sale to local buyers.

Joinery

The joinery team comprises of inmates who are involved with the construction of furniture items for institutional and commercial use. The furniture items include construction of tables, desks, chairs, coffin boxes and wardrobes.

Piggery

This business unit is responsible for breeding pigs and supplying pig meat to buyers along the Navua to Nausori corridor. The unit breeds pigs from weaner to baconer. Although it's not part of the major supplies of pig meat in Fiji, the unit is aiming to improve its breeding numbers.

Poultry

This business unit is responsible for breeding live chickens for supply of fresh eggs which are then retailed in the local market. The eggs produced are of high quality with affordable prices compared to other suppliers of fresh eggs and is mostly bought by households and businesses around the greater Suva area. Additionally the unit also sells live chicken.

Tailor

The tailor unit is responsible for making garments such as school uniforms, beddings, government uniforms, health workers uniforms/coats and many more. Garments are mostly bought by clothing retail shops around Fiji. The unit also specializes in custom made designs and modifies the designs according to customer needs.

The details of the consolidated TMA balances are as follows:

CONCLUSION

The FCS has worked tirelessly to achieve all its Key Performance Indicators in accordance with its ACP through executing cautious measures in utilizing the given budget.

The adoption of better practices attained through training programs of all staff members and the given exposure of corrections related seminars are some of the many ways through which this success was achieved.

The implementation of the Offending Behavior Treatment Program in the Rehabilitation Framework contributed tremendously towards the reduction of recidivism by the FCS, as edited by the Government. While the treatment of offenders remains a challenge, the FCS is mindful of its compliance to International Laws binding prison operations and administration and continues to remain knowledgeable of the trend changes of prison admission and the influx of transnational criminal activity.

Furthermore, the increase in young and elderly offenders with systemic health issues continues to hinder our duty of care, security

and change. This issue sheds a light on the need for proactiveness in terms of providing necessary health services, infrastructure and human resources for a more efficient service delivery.

Prison escapes and disturbances have reduced dramatically as a result of the combined efforts of the newly installed CCTV cameras, K9 overseas training and officer preparations. The success in our Capital Works through relentless consultation between our projects team and our Desk Officer from the Ministry of Economy signified growth, our timely forecast and cautious approach in meeting deadlines.

Significantly, the contribution of the FCS Trading and Manufacturing Accounts gained recognition with its increase in economic returns, successfully filling the Ministry of Economy's reserve and surpassing the yesteryears' record.

All in all, the FCS takes pride in the holistic success of the 2018-2019 financial periods and looks forward to a fulfilling year ahead through effective, efficient and ethical work practices.
